EACH GLOBAL CHAIR IS BUILT WITH FEATURES THAT ARE ERGONOMICALLY DESIGNED TO PROMOTE GOOD POSTURE AND PROVIDE MAXIMUM COMFORT.
WHILE FULLY SUPPORTING YOUR BODY, THESE FEATURES SHOULD ALSO ALLOW YOU TO ADJUST YOUR CHAIR TO FIT YOU.

TENSION ADJUSTMENT

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

CHAIR TILT LOCK

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (Can be either single position, multiple position or infinite position.)

SEAT HEIGHT

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

BACK/LUMBAR HEIGHT ADJUSTMENT

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

SEAT DEPTH

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees. Can be sliding (MD) or manual.

SEAT ANGLE ADJUSTMENT

Allows chair to tilt forward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

BACK ANGLE ADJUSTMENT

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

ARM HEIGHT

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

KNEE-TILT MOVEMENT

Chair tilts from a pivot point at the front of the seat, keeping your feet on the floor as you rock. Maintains stability.

SYNCHRO-TILT MOVEMENT

Backrest reclines at a faster rate than the seat, increasing the angle between your torso and thighs. Enhances comfort and encourages dynamic body movement.

WATERFALL SEAT EDGE

Reduces pressure at the back of your knees, contributing to good blood flow.

CONTOURED CUSHION

Supports the body effectively, allowing you to sit longer without discomfort.

VIBRATING SEAT & BACK

Soothing effect contributes to your relaxation during work breaks.

WIDTH ADJUSTABLE ARMS

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular efforts in neck and shoulders.

ARM ROTATION

Rotate armcaps to support your forearms in various positions. Reduces muscular effort in neck and shoulders minimizing risk of pain.

CENTER TILT

Chair tilts from a pivot point under the center of the seat allowing you to rock. When your feet are well supported, blood flow is enhanced.

SOFT DESCENT PNEUMATIC LIFT

Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.

LUMBAR DEPTH ADJUSTMENT

Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumbar area.

MAXIMIZING YOUR ERGONOMIC SEATING

- · Always select a chair that is designed for the type of work you perform and make certain the chair is comfortable for the length of time spent using it.
- Ensure that the seat and back cushions are contoured to fit your body, which will help eliminate pressure points.
- · An ergonomically designed chair should allow changing positions easily.
- As you work, reposition yourself throughout the day to reduce strain and stress on specific muscle groups. If you change job functions, adjust your chair to fit the new task.
- Proper ergonomic seating should help eliminate many of the work related injuries that result from poor posture and poorly designed chairs.

** Ratchet back height adjustment on

NOTES

· * Select models only.

select models. Mechanisms shown are generic depictions and may differ from one chair

to another.

POSTURE TASK ADJUSTMENTS . (2) Pneumatic seat height • (3) Back angle • (6) Back/lumbar height ** · Seat depth * Swivel

C CRAFT™ SEATING

CRAFT TABLES

STANDARD FEATURES

- Craft tables are the perfect partner to Craft seating products in creating casual meeting solutions for today's workplace and learning environments.
- Coffee and side tables provide a convenient place to set your drinks, a light lunch or your personal devices down during an impromptu discussion
- Tables help to ground the space and provide nesting spaces to keep the area tidy when mobile Craft cubes are not in use.
- Side tables are optional with access to power or USB charging.

FINISHES

 Tables may be ordered in any of the standard finishes below; including two tone where the top is in one finish and the base in another at no upcharge.

ACJ	Absolute Acajou	DWT	Designer White
ASN	Asian Night	HGT	Hayden Grey
AWC	Avant Cherry	SKC	Shaker Cherry
AWH	Avant Honey	TWL	Tiger Walnut
CMB	Clear Maple	WHC	White Chocolate
DES	Dark Espresso	WCR	Winter Cherry

CONSTRUCTION

- . 1" thick thermally fused laminate surfaces with 2mm thick matching edgeband.
- Equipped with levelers for uneven surfaces.
- When square cubes are fully nested, the cubes extend 3" beyond the perimeter of the laminate as an
 invitation to be pulled out and used again.
