

# NEWLAND QUICK ASSEMBLY HEIGHT ADJUSTABLE TABLES

Newland™ quick assembly height adjustable tables are an effective option for workplace wellness programs. They encourage users to move freely and ergonomically between sitting and standing throughout the day, increasing productivity and promoting healthy work habits without work interruption. Height adjustable tables can be used stand-alone or in conjunction with freestanding desking products.

## quick assembly instructions

Leg columns, support beam and motors are all preassembled. Unfold leg columns. Attach feet and worksurface support to base. Fasten assembly to top. Plug in connections and start to use.

## features + benefits

- quick assembly base design allows user to be operational in 15 minutes or less
- 2-stage base with height range of 28.1" to 46.7"H including 1" thick top
- each leg column is powered by its own motor, kept synchronized by the control box
- telescopic support beam accommodates top widths from 46" to 76" wide x 23" to 29" deep
- return kits can be added to create L-shaped configurations
- easy to use up/down controller with digital read-out and four memory programmable positions
- 265 lbs. lift capacity
- anti-collision sensor
- travel speed 1.2" per second
- 10 standard laminate finish options
- 1" thick thermally fused laminate tops with 2mm matching edgeband
- Tungsten finish base
- standby power consumption 0.1W, active power consumption 220W
- meet ANSI/BIFMA X5.5
- ETL/CETL and GREENGUARD certified

## model # width depth

# NEWLAND QUICK ASSEMBLY HEIGHT ADJUSTABLE TABLES

## surface

high performance thermally fused laminate tops, 1" thick with matching 2mm edgebanding

telescopic frame accommodates 46" to 76" widths in 1mm increments

## controller

easy to use digital read-out with four memory positions

## steel tube

3.3" x 2.1"

## height range

28.1" to 46.7"  
with 1" top

travel speed  
1.2"/second

## motors

2-stage,  
dual motors

## foot

low profile, flat foot  
design, no cross bar

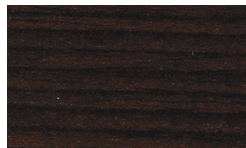

## anti-collision sensor
